For some reason, I seem to be missing out on a lot of options, in terms of trusses, what can they do that I don't have? I've played campaign after campaign, and none of them seem to have the same or similar trusses. (As in, they have access to trusses but I don't have access to them) Do they have alternate ways to do things? I know you can acquire them (one by one) but there's a sort of lack of them. A: I have only seen trusses get used for a few specific reasons: Boosting reflex or combat speed Thermal cloaking I don't know of a reason to use them for anything else. It's not like in Path of Exile where it was very difficult to create trusses in my first play-through of the game. Q: How to get the highest number of sequences How to get the highest number of sequences? IF (SELECT COUNT(\*) FROM DATABASE\_TESTS.DBO.TEST\_USER\_MST WHERE (OBJECT\_ID = OBJECT\_ID(DATABASE\_TESTS.DBO.TEST\_USER\_MST) AND NUM\_LOGIN = ") AND (USER\_NAME IN ('MODERATOR1', 'MODERATOR2', 'MODERATOR3')) > 2 then I need to make another query to get the highest number of sequences per users Any ideas? A: EDIT: the below solution relies on a single DML operation to handle a ton of data. This can take a while, so you'll want to run the query for your login type (moderator1, moderator2, etc.), and make sure that it does indeed meet the criteria of f678ea9f9e
