totally not *cheating* xD. The only useful DLC that is worth buying due to how tedious it is to farm these.. It gives you 200k proud souls for all of your chracters, totally worth it as it can help you easily unlocks the abilities even before the hard game begins.. totally not *cheating* xD. The only useful DLC that is worth buying due to how tedious it is to farm these.. It gives you 200k proud souls for all of your chracters, totally worth it as it can help you easily unlocks the abilities even before the hard game begins.
